WANDERINGS

by
GEORGETTE B. HALL

You and the Law

YOU PROMISED TO PAY. Much of today's business depends on a promise to pay some day in the future. Most of us have signed promissory notes for money, purchasing automobiles, or farms. Some of us have taken notes to evidence a debt.

A promise to pay a sum of money in writing is enforceable if the requirements are met. The ordinary conditional sale contract used when automobiles or appliances are bought on the time plan, contains a promise to pay a sum of money which is enforceable when the requirements of the contract are met.

Under certain requirements, a promise to pay in the form of a promissory note can be transferred as negotiable to another, and in such a case is called "negotiable." If the person to whom the note is transferred can qualify as a "holder in due course" he acquires greater rights than the person to whom the notes was first given. Negotiable notes are desirable in the commercial world, but the maker of a negotiable note cannot defend against a person who has acquired such a note without notice of any defect in the consideration received for the note. In other words, if you buy an automobile on time installment plan and the dealer sells the note you signed to a finance company, you have, under most circumstances, no right to refuse to pay the finance company, if the car is defective and the dealer won't repair it.

The "Uniform Negotiable Instrument Law" in Mississippi as construed by the courts fixes certain technical requirements which must be met before a promise to pay becomes a "promissory note." Certain other technical requirements must be met if the note is to be sold or transferred to another party. A few exact rules govern a great many different transactions and such a system sometimes leads to harsh and sometimes unexpected results.

A person giving or taking a promissory note should be careful to know the rights of himself and the other party, otherwise the latter might have to pay when he least expected or, on the other hand, the lender might lose his money because of the failure of some technical requirement.

If you want to be sure about your rights and obligations consult your attorney before taking or making this promise to pay. It is published in the public interest by the Mississippi State Bar.

CARD OF THANKS

We wish to express our sincere and heartfelt thanks to our many friends for the loving kindness and sympathy shown us at the death of our son, Robert M. Moore, Jr.

Thanks to Rev. E. Morren for his comforting words at the funeral home and grave. Thanks to our friends for the floral offerings and cards. All have been most comforting.

Mr. and Mrs. Robert M. Moore, Sr.

GREENVILLE GETS NEW INDUSTRY
 Greenville has been assured a 200-employee industry. The Missouri Screw Company manufactures machine screws, rivets, and other small metal parts and will move its equipment and key personnel from Waukegan, Illinois. The plant will be the first of its kind in the deep south with construction beginning at once. The company has been in operation since 1946 and its products are used all over the nation.

Celebrating a thirtieth anniversary is a celebration indeed, but when that celebration involves three couples who were married on the same day, by the same minister, at the same services, and when those same three couples are together to celebrate the thirty year mark together, that's news. Mr. and Mrs. C. E. Ripple of Waveland and Baton Rouge have as their guests this week, Mr. and Mrs. C. P. Markley of Canton, Ohio, and Mr. and Mrs. Alton Siebert of Dover, Ohio. All three couples will celebrate their thirtieth wedding anniversary on June 27, 1938, at the Methodist Church in Mineral City, Ohio. The minister who married them stated that their triple marriage was the second that he had performed, the first one having occurred in 1908. Mrs. Ripple says that all three girls were close friends living in the same block in their home town. They all wanted to be married at the same church service. The three couples managed to get together for a joint celebration once before, on their twenty-fifth anniversary, when the group gathered in Ohio. Each couple has one married child, and among them are seven grandchildren.

This column would like to extend heartiest congratulations to the Ripples and to the visiting Markleys and Sieberts.

Unusual hats made from garden flowers were the highlights of this month's meeting of the Waveland Garden Club which met Tuesday afternoon at the home of Mrs. M. W. Glossinger. Prizes were awarded to Mesdames Glossinger, A. J. Butz, and L. Duplantier. Mrs. Glossinger's crocheted Chepeau trimmed with tiny zinnias was awarded first place on the basis of originality, creativity, artistic effect, and time spent in making it. Mrs. Butz's small close fitting hat, covered with green leaves and adorned with a large bouquet of purple verbenas walked off with second prize because of its color and arrangement. Mrs. L. Duplantier's beige and green straw bonnet made attractive with a spray of new growth pine and pine cones won third place. Mrs. Norman Hall and Colonel M. W. Glossinger acted as judges. The Club presented Mrs. Hall with a lovely potted plant for acting as a judge.

Business was discussed, and the ladies planned an outdoor winter roast as their July activity. Following the business session, refreshments were served. Members attending were Mesdames Lagasse, Jr., A. J. Butz, Joe Vitari, Larry Sauer, Jr., Louis Moreau, and M. W. Glossinger.

Mr. and Mrs. Leo Comeaux and three children of Port Sulphur, La., were week-end guests of Mr. and Mrs. Ducre Bourgeois and family. Joining the group on Sunday was Lee Coster of Bay St. Louis.

Master sergeant and Mrs. Edwin Cobb and children are residing with the Ducre Bourgeois family until their home in Biloxi is made ready for occupancy. The Cobbs have just returned from Tokyo, Japan, where they resided while Master Sergeant

Cobb was serving an overseas stint in the armed service. Mrs. Cobb, the former Audrey Bourgeois, and Mrs. Richard Olson, the former Patricia Bourgeois, both daughters of the Ducre Bourgeois, were with their parents for the first time in several years. The weekend was a busy one as 14 visitors and family members were present.

Mr. and Mrs. Forest Jenkins and daughter, Prissy, of Lake Village, Arkansas, are spending a two weeks' vacation with Mr. and Mrs. Arvil Jenkins on Market Street.

Frank Sutton of Rockford, Illinois, has been a guest this week of Robert Greiger, in his home on Beach Boulevard.

Mr. and Mrs. Ray Pratts and children, Ray Jr., Mike and Donna, of New Orleans, are spending a three weeks' vacation at the Waveland Avenue home of Mr. and Mrs. Vitari. Sr. Mrs. Pratts is the daughter of the Vitaris.

Also visiting the Vitaris last week were Mr. and Mrs. Billy Brinkman and Mr. and Mrs. Eddie Price of New Orleans. Eddie Price is the well-known professional football star and current TV sportscaster in New Orleans.

Get well wishes are sent to Mrs. Fred Meyer, mother of Mrs. James Lagasse of Waveland, who is recuperating from surgery.

Go to the church of your choice this Sunday. Local church services are as follows: Catholic Masses are at 6, 8, and 10 A. M. on Sunday. Baptist services are as follows: Sunday School 10 A. M. Sunday Worship 11 A. M. BTU 6:30 P. M. Evening Worship 7:30 P. M. Wednesday Evening Worship 7:30 P. M. Methodist services are at 9:30 A. M. Sunday morning followed by Sunday School at 10:30 A. M.

Memorial Day services held at the grave of Clement H. Hostetter, after whom the local American Legion Post was named.

can cut gain on fattening animals by a half pound per day. They will cause a drop in milk production of up to 25 percent.

On pasture you can let the animals control their own hornflies by building a backrubber. This, as you know, is made with burlap bags and barbed wire, come by this office and get a leaflet on making a backrubber and treating it with insecticide.

On dairy cattle and animals being fattened for slaughter, only methoxychlor DUST is recommended. Your county agent can give you specific instructions on rates to

When dairy cows are grazing summer temporary grazing crops like Sudan grass, Sudan, or cross fenses to control grazing. By doing this you give one section of a field a chance to recover while the other is being grazed. A single electric or hot wire will serve as a cross fence to divide the grazing area. Both Sudan and millet are heavy users of nitrogen. When you move cows from an area, top dress the grass generously with nitrogen. If grazing is limited, graze the herd an hour in early morning and

COOL
Your Home or Business with...
GAS

It's true... GAS for cooling is as effective and inexpensive as GAS for heating. It's suitable for any installation, from three tons to 300 and more. Shown here is the compact Sun Valley model, which heats or cools at the flip of a switch. Other types provide cooling alone - with quiet gas engines installed outside the house or store. Before you buy, be smart... Investigate GAS air conditioning for low first cost, low operating cost, low maintenance cost.

NOTES

BY EDWARD J. SHANNON
Hancock County Agent

SOYBEANS
Don't get in a hurry about planting those soybeans. Planting too early can cut your yield. Best time to plant is around June 15.

BEER, CATTLE FIELD DAY
Mark your calendar. A beer cattle field day will be held at Mississippi State College May 2. It is a chance to get a real good, proved herd bull.

PRE-EMERGENCE WEED CONTROL
When using pre-emergence weed control on cotton, hill-drop cotton seed 8 to 9 seeds per hill, 9 to 16 inches apart. But, hill-drop seed of high germination only. On low, germinating seed, drill the seed at an increased rate.

POST PEELING
Planning to cut some pines for fence posts and have them treated. Here is a tip. Peel them now. In the early spring peeling can be done for around one-third of the labor cost of any other season of the year.

QUALITY COTTON
Make money from your cotton. After last year's low quality crop, there may be a shortage of higher grades. Higher grade cotton means more money for you.

NOTICE OF TRUSTEE'S SALE
WHEREAS, on the 28th day of August, 1955, T. R. Carraway, and Jacquelyn Elizabeth Carraway, husband and wife, executed a deed of trust to W. J. Phillips, trustee, to secure an indebtedness therein mentioned to A. E. Cazaubon, which deed of trust is recorded in Vol. 62, pages 293-4, Records of Trust on land in Hancock County, Mississippi, and

NOTICE TO CREDITORS
No. 7929
Pursuant to the provisions of Chapter 263, Laws of 1938, an election will be held on the 8th day of July, 1958, between 9:00 A. M. and 5:00 P. M., to select from nominees three (3) Commissioners for the Hancock County Soil Conservation District.

NOTICE TO CREDITORS
No. 7929
Notice is hereby given that letters Testamentary on the Estate of Alfred J. deRaimies, deceased, were granted to the undersigned by the Chancery Court of Hancock County, Mississippi, on the 23rd day of May, 1958, and all persons having claims against said estate are hereby notified to present their claims to the Clerk of said Court and to have them probated and allowed within six months from this date, failure to do so will bar the claim.

CHANCERY SUMMONS
No. 7934
THE STATE OF MISSISSIPPI, To Unborn Heirs at Law of Mrs. LILLIAN KEMP, deceased; and any and all persons having or claiming any right, title or interest in and to the following described property situated in Hancock County, to-wit: Commencing at the Northwest corner of the Michael O'Connor Claim, Section 31, Township 7 S. Range 16 West, thence 1320 feet west to a point; thence 1114 feet, South to a point at a place of beginning; thence North 55 degrees West 850 feet to a point; thence South 35 degrees West 150 feet to a point; thence North 55 degrees West 85 feet to a point in the middle of Old Road; thence South 22 degrees West 1509 feet to a point; thence East 1208 feet to a point; thence North 1042 feet to the place of beginning, said land containing 25 and 4/10 acres, more or less, and being part of the John Shave Claim, Section 8, and also part of Section 25, all in Township 7 S. Range 17 West, Hancock County, Mississippi.
